

How to Clean & Care for Your Resysta Products

To maintain the beauty of your Resysta deck finished with Resysta finish, a little care and cleaning goes a long way. All exterior building materials require cleaning and Resysta decking with Resysta finishes is no different. We recommend soap-and-water cleaning with a soft bristle brush. Learn how to clean and care for your finished Resysta deck by reading the information below and get ready to enjoy maximum outdoor living with minimal maintenance.

Dirt and Debris

The affected area should be sprayed off with a garden hose to remove surface debris. Use warm, soapy (mild soap) water and a soft bristle brush to remove dirt and debris from the Resysta finished surface.

Lime scale deposits left behind from hard water

Combine one part water with one part vinegar in a spray bottle or bucket. Spray it by hand onto the affected areas. Wipe the area with a clean, soft cloth. If using a bucket, moisten a cloth with the mixture and use it to wipe away the lime scale. If the lime is not easily wiping away, moisten a cloth with the mixture and lay it over the area. Allow it to soak for 5-10 minutes. Remove the cloth and wipe the loosened lime away. Repeat as needed until all of the lime scale is removed.

Oil/Grease/ Food

All food spills should be removed as soon as possible. **The surface must be cleaned within seven (7) days to maintain the applicable finish warranty.** Failure to clean food, oil, or grease spills within this period may void the applicable finish warranty for the affected area. To remove, spray off with a garden hose and use warm, soapy water and a soft bristle brush to remove spills from the embossing pattern.

Mold and Mildew

If debris, such as pollen, leaves, and dirt, is allowed to remain on the deck surface, mold or mildew can feed on the biofilm. Using a garden hose and warm, soapy water with a soft bristle brush is recommended to remove the dirt, pollen, and mold.

Products and Methods to Avoid

To protect your Resysta finish and maintain your warranty, do not use any of the following:

- Pressure Washers

- Bleach and Bleach-Containing Products

Acetone, Paint Thinner, and Other Solvents

Abrasive Cleaners and Steel Wool

Use of any prohibited product or method listed above may void the applicable Resysta warranty.
