

## Original Resysta - Colorful through and through

Resysta brings a lot of color into play. The brand new TruColor decking profiles are evenly colored in our four popular shades Spanish Cedar, Charcoal Grain, Rosewood Ipe, and Weathered Koa. The advantage for you is obvious: minor mechanical damage to the surface - which inevitably occurs in the decking area - remains practically invisible.

## RESYSTA Sealing

As with fine wooden floors, TruColor planks are surface-sealed. The new sealant not only gives our decking the irresistible, natural shine typical of Resysta, but also protects it from environmental influences and makes cleaning easier.
